### **Poems to Heal the Healer: The 12 Chiron Signs**

By long-time poet and astrologer

Joyce Mason

Here's a unique, right-brain alternative to the "heady" astrology lecture—a poetry reading! Joyce Mason, long known for her work with Chiron, recently published an e-book, *Poems to Heal the Healer: The 12 Chiron Signs*. Each poem has unique graphics and imagery to reflect the healing journey of the individual Chiron signs.

This presentation isn't just a recitation of the poems; it offers participants an opportunity to respond to them based on their personal experience—and those of others they know whose Chironic journey has moved them. It's an intuitive, experiential way to learn more about Chiron. The format is:

- Intro – Why poetry and the arts are hot during Chiron in Pisces
- Reading of the first six Chiron signs (Aries – Virgo)
- Discussion/feedback with the audience of the first six
- Reading of the second six Chiron signs (Libra – Pisces)
- Discussion/feedback with audience on the second six)

- Wrap-up and final questions

This is a 1.5 – 2 hour program and can be adjusted to the timing needs of your group. A sample of one of the poems is enclosed—the one for the current Chiron cycle. If interested, please contact Joyce.
